General Information

All general business corporations, banking, insurance, utilities, and transportation and transmission corporations whose franchise tax plus tax surcharge, (see Tax Law sections 188, 209-A, 1455-A and 1520) for the current tax year, can reasonably be expected to be more than \$1,000 after credits must file a declaration of estimated franchise tax and tax surcharge and make quarterly installment payments.

Any corporation doing business in the Metropolitan Commuter Transportation District that is required to make a declaration of estimated franchise tax and tax surcharge must also make a declaration of estimated metropolitan transportation business tax (MTA surcharge) and make quarterly installment payments.

If you do not pay the required amounts on time, you may have to pay an underpayment penalty for the period of underpayment.

Payment of Estimated Tax

First installment - If the franchise tax plus tax surcharge on your previous year's return or on your application for extension of time for filing that return is more than \$1,000, you must pay 25% of the tax and tax surcharge with the return or extension.

A 25% first installment of the MTA surcharge is also required if your franchise tax plus tax surcharge is more than \$1,000.

The second, third and fourth installments of estimated franchise tax plus tax surcharge, and of MTA surcharge, are due on the 15th day of the sixth, ninth and twelfth months of your tax year.

Penalties for Underpayment of Estimated Tax

A penalty will be imposed if you fail to file a declaration of estimated franchise tax and fail to pay all or any part of an installment payment of estimated franchise tax.

Penalty will not be due on an installment if the total estimated franchise tax and tax surcharge payments made on or before an installment due date equals or exceeds the amount which would have been required to be paid on or before that date if the amount of the estimated tax and tax surcharge were the smallest of:

...**For large corporations** - a corporation that had (or whose predecessor had) allocated entire net income of at least one million dollars (\$1,000,000) for any of the three tax years immediately preceding the tax year involved...

1. Ninety-three percent (93%) of the current year's franchise tax and tax surcharge shown on the return; or
2. Ninety-three percent (93%) of the franchise tax and tax surcharge for the current year computed on an annualized basis; or
3. Ninety-three percent (93%) of the franchise tax and tax surcharge for the current year computed on a recurring seasonal income basis.

...**For all other corporations...**

1. Ninety percent (90%) of the current year's tax and tax surcharge shown on the return; or
2. One-hundred percent (100%) of the franchise tax and tax surcharge shown on the return for the preceding tax year (if it was for a period of 12 months); or
3. A franchise tax and tax surcharge computed using current tax rates applied to last year's facts and law; or
4. Ninety percent (90%) of the franchise tax and tax surcharge for the current year computed on an annualized basis; * or
5. Ninety percent (90%) of the franchise tax and tax surcharge for the current year computed on a recurring seasonal income basis. *

The above penalty provisions are also applicable if you fail to file a declaration of estimated MTA surcharge or fail to pay all or any part of an installment payment of MTA surcharge.

* To avoid underpayment penalties, you must make up a reduction in an estimated franchise tax and tax surcharge payment resulting from using annualized income or seasonal income (exception 4 or 5) by increasing the amount of the next installment determined under exception 1, 2 or 3 by the amount of such reduction.

Computation of Underpayment

File separate forms to compute underpayment of: (1) tax plus tax surcharge; and (2) MTA surcharge.

Complete lines 1 through 12 to determine any underpayment of estimated taxes.

Line 1. Check the appropriate box to indicate which exception you are using to compute the penalty for underpayment of estimated tax. If you have elected to compute the penalty using exception 1, 2 or 3, complete lines 2 through 5. If you have elected exception 4 or 5, attach a schedule showing the computation of the installments. Check *Other* if you have elected to use more than one exception. Attach a schedule showing the computation of each installment and indicate which exception is being used.

Line 2. Check the appropriate box to indicate whether the underpayment penalty is based on franchise tax plus franchise tax surcharge or your MTA surcharge. Enter your 1991 franchise tax plus franchise tax surcharge or MTA surcharge in the 1991 column. Enter your 1992 franchise tax plus franchise tax surcharge or your MTA surcharge in the 1992 column. These figures should be entered as shown on your return.

Line 3. Large corporations that had (or whose predecessor had) allocated entire net income of at least one million dollars (\$1,000,000) for any of the three tax years immediately preceding this tax year must multiply line 2 by 93%. All others multiply line 2 by 90%.

Line 7 If you selected on line 1:

- Box (1) — 90% or 93% of the current year - Divide the amount from line 5, 1992 column, by three, and enter in columns B, C and D.
- Box (2) — 100% of prior year - Divide the amount from line 5, or (3) 1991 column, by three, and enter in columns B, C and D.
- Box (4) — Enter the appropriate installments in columns B, C or (5) and D. Attach statement of computation.

Line 8. A payment of estimated tax is applied against underpayments of required installments in the order in which the installments are required to be paid.

Example: Calendar-year taxpayer

Mandatory first installment due on 3/15	\$1,500
Second installment due on 6/15	\$1,000
Payment made on 6/15	\$2,000
Payment made on 9/15	\$1,500

Penalty is due on \$1,500 from March 15 to June 15.
Penalty is due on \$500 from June 15 to September 15.

Computation of Underpayment Penalty

Complete lines 13 through 31 to determine the amount of penalty.

A penalty is due on each underpayment from the date due to the date paid or to the due date of the franchise tax return.

No penalty will be imposed for underpayment of estimated tax installments because you used the tax surcharge rate of 10% instead of 15% or failed to estimate the MTA tax surcharge, as long as the installments which were due before June 15, 1993, were paid by the following dates:

- 15% tax surcharge, by the first installment due date after May 15, 1993
- MTA surcharge, by June 15, 1993

The penalty is computed for the period of underpayment at a rate set by Article 27, section 1096(e)(3). Daily compounding of interest does not apply.

Line 32. In each column enter either the amount from line 31 or, if the installment payment (line 10) equals 80% or more of line 2, 1992 column, divided by four, the amount in the corresponding column of line 31 multiplied by 75%.
