

Instructions for Form CT-186-P

Utility Services Tax Return — Gross Income

Tax Law — Article 9, Section 186-a

CT-186-P-I

Changes for 2000

Gross income — Taxpayers who sell gas or electricity that is delivered through mains, pipes, wires, lines, or the like for ultimate consumption or use in New York State must report gross income into the following categories:

- Receipts from the sale of gas and electric service of whatever nature.
- Receipts from the sale of steam, water, and refrigeration utility services.
- Receipts from interest and dividends.
- Profits.

Tax rates — For the tax year January 1, 2000, through December 31, 2000, the tax rates are:

- 2.5% on noncommodity gas and electric service (receipts from transportation, transmission, or distribution of gas or electricity).
- 2.1% on receipts from the sale of the commodities of gas, electricity, steam, water, and refrigeration; and from steam, water, and refrigeration service.
- 2.1% on receipts from interest and dividends.
- 2.1% on profits.

MTA surcharge — For a utility supervised by the Department of Public Service (where the utility is not a provider of telecommunication services) the MTA surcharge on Form CT-186-P/M for the tax year January 1, 2000, through December 31, 2000, is computed using the 2.5% and 2.1% tax rates on gross income. The MTA surcharge is no longer computed as if the tax rate on gross income was 3.5%.

Who must file Form CT-186-P — Every utility doing business in New York State that is subject to the supervision of the New York State Department of Public Service or Department of Transportation, who sells or furnishes gas, electricity, steam, water, or refrigeration service by means of mains, pipes, or wires for ultimate consumption or use by the purchaser in this state must file this form. *Utilities* include persons, corporations, companies, associations, joint stock associations, co-partnerships, estates, assignees of rents, persons acting in a fiduciary capacity, and persons, their assignees, lessees, trustees, or receivers, appointed by any court, that are subject to the supervision of the New York State Department of Public Service. *Utilities* include, but are not limited to, street surface, rapid transit, subway, and elevated railroads; gas, electric, steam, water, bridge, express, transfer, and freight terminal companies; and nonoperating railroads that lease their property to others. **Motor carriers or brokers are not required to file this return.**

The following taxpayers are required to file Form CT-186-P if they sell gas or electricity, or gas or electric service:

- A. All municipalities, political and civil subdivisions, and public districts that sell or furnish gas, electricity, or gas or electric service (including the sale of the transportation, transmission, or distribution of gas or electricity). Do not include as taxpayers those described below in paragraph (2) under *Exemption from tax*.
- B. All municipalities engaged in the retail sale of electricity or the transportation, transmission, or distribution of electricity. Do not include as taxpayers those described below in paragraph (3) under *Exemption from tax*.

Taxpayers described in A and B above only compute receipts from the sale of gas and electric service of whatever nature on Part I. They should not complete Parts II, III, and IV.

A utility subject to section 186-a that has gross income of less than \$500 for the tax year ending December 31 is exempt from the payment of the tax under this section, but must still file a return.

Other forms you may have to file

Excise tax on telecommunication services — If you are a telephone or telegraph company or other provider of telecommunication services, even if those services are not your primary business, do not file this form. File Form CT-186-E instead to report the tax imposed by sections 186-a and 186-e.

Tax on importation of gas services — Article 9, section 189, imposes a tax upon gas importers who import, or cause to be imported, gas services into New York State for their own use or consumption. For additional information, see TSB-M-91(5)C. Use quarterly Form CT-189, *Tax on Importation of Gas Services*, to remit the tax collected from the individual gas importer.

Exemption from tax — The following are exempt from taxation under section 186-a and do not have to file Form CT-186-P:

1. New York State, municipalities, political and civil subdivisions of New York State, or municipality and public districts, when selling or furnishing steam, water, or refrigeration service.
2. Municipalities, political and civil subdivisions, and public districts that sell or furnish gas, electricity, and gas or electric service, including the sale of the transportation, transmission, or distribution of gas or electricity, if they own and operate facilities used to generate electricity or distribute electricity or gas, and then sell or distribute such electricity or gas solely at retail within their jurisdiction.
3. Municipalities engaged in the retail sale of electricity or the transportation, transmission, or distribution of electricity, where all such electricity has been generated solely by and purchased solely from New York State or a public authority of New York State (New York State Power Authority).
4. Not-for-profit corporations and associations described in section 1116(a)(4) of the Tax Law, organized and operated exclusively for religious, charitable, or educational purposes, where the organization resells gas or electricity, or gas or electric service, as landlord to its tenants in buildings owned by the organization.
5. A corporation leasing from a city in New York State a water works system to supply water at cost to relieve water pollution in a river within that city.
6. Limited dividend housing corporations organized under the Private Housing Finance Law.

When and where to file — You must report gross income on a calendar-year basis to New York State, even if you maintain your records and report to the Internal Revenue Service (IRS) using a fiscal accounting period.

The annual return is due on March 15 following the close of each calendar year. If March 15 falls on a Saturday, Sunday, or legal holiday, the return is due on the next business day. Mail your return to:
NYS Corporation Tax, Processing Unit, PO Box 22038, Albany NY 12201-2038.

Private delivery services — If you choose, you may use a private delivery service, instead of the U.S. Postal Service, to file your return. However, if, at a later date, you need to establish the date you filed your return, you cannot use the date recorded by a private delivery service **unless** you used a delivery service that has been designated by the U.S. Secretary of the Treasury or the Commissioner of Taxation and Finance. (Currently designated delivery services are listed in Publication 55, *Designated Private Delivery Services*. See *Need help?* on page 5 of these instructions for information on ordering forms and publications.) If you use **any** private delivery service, whether it is a designated service or not, address your return to: **State Processing Center, 431C Broadway, Albany NY 12204-4836.**

Extension of time for filing tax return — If you cannot meet the filing deadline, you may request an extension of time by filing Form CT-5.9. An extension of time granted by the IRS to file a federal tax return does not extend the due date for filing Form CT-186-P.

Amended return — If you are filing an amended return, please write **Amended return** across the top of the front page.

Employer identification number, file number, and other identifying information — For us to process your corporation tax forms, it is important that we have the necessary identifying information

from your preprinted label. **Keep a record of the label information for future use.** Please be certain to include your employer identification number and file number on each corporation tax form mailed.

If you use a paid preparer or accounting firm, make sure they use the mailing label or label information when completing all forms prepared for you.

Change of business information — If there have been any changes in your business name, identification number, mailing address, business address, telephone number, or owner/officer information, and you have not previously notified us, complete Form DTF-95, *Business Tax Account Update*. For information about ordering forms, refer to *Need help?* on page 5.

Change of address — If your address has changed, enter your new address on the label and check the box below the name and address block at the top of your corporation tax return. Do not check this box for any change of business information other than for address. You must still attach the preprinted label with the old address for us to update your account.

Maintenance fee for foreign corporations — A corporation organized outside of New York State (a *foreign corporation*) that is authorized to do business in New York State must pay an annual maintenance fee of \$300. Failure to pay the annual maintenance fee or its equivalent in New York State taxes (including MTA surcharges) under Article 9 (or Article 9-A or 32) will result in annulment of your authorization to do business in New York State. Payments of corporation taxes (but not a license fee reported on Form CT-240) are counted as payments toward the \$300 annual maintenance fee. If the total of corporation taxes paid for the tax year is more than \$300, you have satisfied the requirement to pay the \$300 annual maintenance fee. If the total of corporation taxes paid for the tax year is less than \$300 and you are filing Form CT-183, enter \$300 on line 6 of Form CT-183 and make a payment with that form. In addition, if you are filing Form CT-186, enter \$300 on line 7 of Form CT-186 and make a payment with that form. In addition, on any other Article 9 returns that you are required to file, indicate that you paid a total tax and maintenance fee of \$300 with Form CT-183 or Form CT-186, and make no remittance of tax with the other returns. Article 9 returns include Forms CT-183, CT-183-M, CT-184, CT-184-M, CT-184-R, CT-186, CT-186-M, CT-186-A, CT-186-A/M, CT-186-E, CT-186-EZ, CT-186-P, CT-186-P/M, and CT-189.

Foreign corporations – license fee — Foreign corporations must also file Form CT-240, *Foreign Corporation License Fee Return*, whether or not they are authorized to do business in New York State. Form CT-240 must be filed with the corporation's first franchise tax return, or if the capital stock employed in New York State has increased since the last license fee return was filed.

NAICS business code number — Enter the six-digit NAICS business activity code number from your federal return.

Metropolitan transportation business tax (MTA surcharge)

Any corporation taxable under Article 9, section 186-a that does business in the Metropolitan Commuter Transportation District (MCTD) must file Form CT-186-P/M and pay a metropolitan transportation business tax surcharge on business done in the Metropolitan Transportation Authority region (MTA surcharge). The MCTD includes the counties of New York, Bronx, Queens, Kings, Richmond, Dutchess, Nassau, Orange, Putnam, Rockland, Suffolk, and Westchester.

Corporations not doing business in the MCTD must disclaim liability for the MTA surcharge by answering *No* to the question on page 1 of Form CT-186-P. They are not required to file Form CT-186-P/M.

Specific instructions

Whole dollar amounts — You may elect to show amounts in whole dollars rather than dollars and cents. Round an amount from 50 cents through 99 cents to the next higher dollar, and round any amount less than 50 cents to the next lower dollar.

Percentages — When computing allocation percentages, convert decimals into percentages by moving the decimal point two spaces to the right. Percentages should be carried out to four decimal places. For example: $5,000/7,500 = 0.6666666 = 66.6667\%$.

Negative amounts — Show any negative amounts in parentheses.

Note: Complete Form CT-186-P in the following order:

- lines 17 through 49
- lines 1 through 16
- line A

Line A — Make your payment in United States funds. We will accept a foreign check or foreign money order only if payable through a United States bank or if marked **Payable in U.S. funds**.

Computation of tax

Line 2 — A Power for Jobs tax credit is available to qualified electric corporations that are local distribution companies during calendar years 1997 through 2005. To claim the Power for Jobs tax credit, a taxpayer must attach to Form CT-186-P a certificate from the Department of Public Service verifying the correctness of the calculation of the tax credit shown on this return. The Power for Jobs tax credit does not apply to the metropolitan transportation business tax surcharge (Form CT-186-P/M).

Line 4b — First Installment for the next period — If the tax amount shown on line 3 is more than \$1,000 and you did not file Form CT-5.9, you must pay a mandatory first installment of estimated tax for the period following that covered by this return. Enter 25% of the total tax amount shown on line 3.

Additional Installments of Estimated Tax (Form CT-400) — If you expect your tax for the next period to exceed \$1,000, you must file a Form CT-400 and pay the additional installments of estimated tax due on June 15, September 15, and December 15.

Line 8 — If you underpaid your estimated tax for 2000, use Form CT-222, *Underpayment of Estimated Tax by a Corporation*, to compute the penalty. Attach Form CT-222, check the box, and enter the amount of penalty on line 8. If no penalty is due, enter "0" on line 8.

Line 9 — If you do not pay the tax on or before the original due date (**without** regard to any extension of time for filing) you must pay interest on the amount of the underpayment from the original due date to the date paid. Exclude from the interest computation any amount shown on line 4a or 4b, first installment of estimated tax for the next period. You may call the Business Tax Information Center for the current interest rate or to have the interest computed for you. See *Need help?* on page 5.

Line 10 — Additional charges for late filing and late payment are computed on the amount of tax minus any payment made on or before the due date (**with** regard to any extension of time for filing). Exclude from the penalty computation any amount shown on line 4a or 4b, first installment of estimated tax for the next period.

- A. If you do not file a return when due, or if the request for extension is invalid, add to the tax 5% per month up to 25% (section 1085(a)(1)(A)).
- B. If you do not file a return within 60 days of the due date, the addition to tax in item A cannot be less than the smaller of \$100 or 100% of the amount required to be shown as tax (section 1085(a)(1)(B)).
- C. If you do not pay the tax shown on a return, add to the tax ½% per month up to 25% (section 1085(a)(2)).
- D. The total of the additional charges in item A and C may not exceed 5% for any one month, except as provided for in item B above (section 1085(a)).

If you think you are not liable for these additional charges, attach a statement to your return explaining the delay in filing, payment, or both (section 1085).

Note: If you wish, we will compute the interest (line 9) and penalty (line 10) for you. Call the Business Tax Information Center at 1 800 972-1233.

Line 16 — Collection of debts from your refund — We will keep all or part of your refund if you owe a past-due, legally enforceable debt to the IRS or to a New York State agency. This includes any state department, board, bureau, division, commission, committee, public authority, public benefit corporation, council, office, or other entity performing a governmental or proprietary function for the state or a social services district. We will refund any amount over your debt.

If you have any questions about whether you owe a past-due, legally enforceable debt to the IRS or to a state agency, contact the IRS or that particular state agency.

For New York State tax liabilities **only** call 1 800 835-3554 (outside the U.S. and outside Canada call (518) 485-6800) or write to NYS Tax Department, Tax Compliance Division, W A Harriman Campus, Albany NY 12227.

Definition of gross income — *Gross income* includes receipts from transactions within New York State that are derived from the utility's principal business, and profits from transactions within New York State that **are not** derived from the utility's principal business.

Receipts that are included in gross income include the following:

- Receipts from the sale of gas or electric service of whatever nature.
- Receipts from transportation, transmission, or distribution of gas or electricity by means of conduits, mains, pipes, wires, lines, or the like.
- Receipts from the sale of gas, electricity, steam, water, or refrigeration when sold through mains, pipes, or wires for ultimate consumption or use within New York State.
- Receipts from services rendered within New York State that are performed in the conduct of the utility's principal business.
- Receipts from sale of merchandise within New York State that are part of the utility's stock in trade.
- Other receipts from sales made or services rendered within New York State that are derived from the conduct of the utility's principal business.
- Receipts from interest, dividends, and royalties from sources within New York State.

In determining gross income receipts, include cash, credits, and property of any kind or nature without any deductions for the cost of property sold, the cost of materials used, labor, services, or other costs, interest or discount paid, or any other expenses, except those exclusions and deductions provided for with respect to lines 19, 22, and 39.

Profits included in gross income include the following:

- Profits from the sale of securities that are held, managed, or controlled within New York State.
- Profits from the sale of real property within New York State.
- Profits from the sale of personal property within New York State that are not part of the utility's stock in trade.
- Profits from any transaction (except sales for resale and rentals) within New York State.

Do not deduct gross income received from a financial resource asset, unless you attach to Form CT-186-P a certificate issued by the New York State Department of Public Service, verifying this deduction.

Article 2-I of the general city law provides for certain rebates of charges for energy in revitalization areas of New York City. However, nothing contained in Article 2-I shall be construed as reducing the amount of the gross income subject to tax under section 186-a of the Tax Law.

Special rules for landlords

Sales to landlords — *Gross income* also includes receipts from utility services to a landlord for resale to a tenant for consumption or use by the tenant as incident to the landlord's renting of premises to the tenant, even though such sales are not for ultimate consumption by the landlord. *Utility services* means the furnishing of gas, electricity, steam, water, or refrigeration, and services directly connected to the furnishing of gas, electricity, steam, water, or refrigeration. Include receipts from the sale of gas or electric services on line 17. Include receipts from the sale of steam, water, or refrigeration services on lines 24 through 29.

Sales to tenants by landlords — If all utility services purchased by a landlord for resale included the section 186-a tax, then the landlord is not required to complete Form CT-186-P.

If **any** utility services purchased by a landlord for resale to tenants **did not include** the section 186-a tax, then you must compute lines 17 and 24 through 29 as follows:

- Receipts derived by a landlord from the resale of utility services to a tenant are deemed to be equal to the landlord's cost of the same service (including any associated transportation cost). Include these amounts on lines 17 and 24 through 29; do not include the markup billed to the tenants.
- If the tax under section 186-a was included on the purchase of utility services by the landlord, then the landlord may deduct the cost of the same service (including any associated transportation cost) on lines 17 and 24 through 29. If the tax under section 186-a was not included on the purchase by the landlord, then do not deduct this cost.

Computation of gross income

Part I — Computation of receipts from the sale of gas and electric service of whatever nature

Line 17 — Taxpayers who have receipts from the sales of gas or electric service of whatever nature within New York State must complete lines 17 through 23. Gross income on line 17 includes the following:

- Receipts from the sale of gas or electric service of whatever nature.
- Receipts from transportation, transmission, or distribution of gas or electricity by means of conduits, mains, pipes, wires, lines, or the like. These receipts, no matter how denominated, are equivalent to the noncommodity charges for gas or electric service of whatever nature.
- Receipts from the sale of the commodity of gas or electricity when sold through mains, pipes, or wires for ultimate consumption or use within New York State.
- Receipts from gas or electric services rendered within New York State that are performed in the conduct of the utility's principal business. See line 27 for a listing of receipts included on this line.
- Receipts from the sale of merchandise from gas or electric service within New York State that are part of the utility's stock in trade. See line 28 for a listing of receipts included on this line.
- Other receipts from gas or electric sales made or services rendered within New York State that are derived from the conduct of the utility's principal business. Receipts include but are not limited to:
 - Receipts from the sale of residuals and by-products that are consumed or used in New York State.
 - Receipts from transportation or transmission agreements, such as contract carriage and lease operating agreements, where the utility uses its mains, pipes, or wires within New York State to transport or transmit a commodity owned by the purchaser that is not a utility. See *Special rules for landlords* above.

In determining gross income receipts, include cash, credits, and property of any kind or nature without deductions for the cost of property sold, the cost of materials used, labor, services or other costs, interest of discount paid, or any other expenses.

Do not include on line 17 receipts from the following:

- Cash discounts taken by the customer.
- Uncollectible accounts.
- Taxes imposed by New York State or its municipalities or the federal government, when the taxpayer is merely a collection agency for the taxing authority (for example, state and local sales taxes and federal excise taxes).

Do not include on line 17 receipts from utility services included on lines 24 through 29. See *Special rules for landlords* above.

Line 18 — Enter receipts from the sale of the commodity of gas or electricity when sold through mains, pipes, or wires for ultimate consumption or use within New York State that were included on line 17.

Line 19 — Enter receipts from sales for resale (if your utility has passed on its section 186-a tax to you and you resell the service, you may deduct your cost of the service resold by you).

Line 21 — Compute receipts from transportation, transmission, or distribution of gas or electricity by means of conduits, mains, pipes, wires, lines, or the like by subtracting line 18 from line 17.

Line 22 — Exclusions allowed from the receipts on line 21:

- Sales of transportation, transmission, or distribution of gas or electricity by means of conduits, mains, pipes, wires, lines or the like to a:
 - utility (excluding a public authority) supervised by New York State or another jurisdiction when an element of such supervision includes rate regulation; or
 - municipality that owns and operates facilities that are used to generate or distribute electricity or distribute gas and that distributes and sells this electricity or gas solely at retail, solely within its jurisdiction; or

— public authority of New York State when that public authority is primarily engaged in the generation and transmission or distribution of electricity or gas and at least 95% of the assets are so devoted.

- Sales of transportation, transmission, or distribution of electricity to a municipality when the electricity being transported has been purchased by that municipality, and has been generated solely by and purchased solely from New York State or a public authority of New York State (New York State Power Authority), and when the municipality sells solely at retail, solely within its jurisdiction, the electricity being transported, transmitted, or distributed.
- Sales of transportation, transmission, or distribution of gas or electricity to not-for-profit corporations and associations organized and operated exclusively for religious, charitable, or educational purposes, described in section 1116(a)(4) of the Tax Law, when that organization resells the transportation, transmission, or distribution as part of a bundled gas or electric service as landlord to its tenants in buildings owned by that organization.

Enter all exclusions listed above that are included as receipts on line 17. Attach a statement listing all deductions. See *Special rules for landlords* above.

Note for tax planning:

For calendar tax years beginning on or after January 1, 2002, receipts received from nonresidential customers representing the noncommodity charges for gas or electric service (receipts from the transportation, transmission, or distribution of gas or electricity) will be excluded from gross income according to the following schedule:

- calendar year 2002 25%
- calendar year 2003 50%
- calendar year 2004 75%
- calendar year 2005 and thereafter 100%

The term *nonresidential customers* means those customers whose use of gas, electricity, or gas or electric service, **does not** qualify for the reduced rate of sales and compensating use tax on residential gas, electricity, or gas or electric service, under section 1105-A of the Tax Law.

Part II — Computation of receipts from steam, water, and refrigeration utility services

Lines 24 through 29 — Taxpayers who sell steam, water, or refrigeration that is delivered through mains, pipes, or wires for ultimate consumption or use within New York State must complete lines 24 through 29. Enter, for each type of commodity sold for ultimate consumption or use within New York State, the receipts from those sales without any deductions. See *Special rules for landlords* above.

Do not include on lines 24 through 29 receipts from the following:

- Receipts from sales for resale (if your utility has passed on its section 186-a tax to you and you resell the service, you may deduct your cost of the service resold by you).
- Cash discounts taken by the customer.
- Uncollectible accounts.
- Taxes imposed by New York State or its municipalities or the federal government, when the taxpayer is merely a collection agency for the taxing authority (for example, state and local sales taxes and federal excise taxes).

Line 27 — Enter all receipts (without any deductions) from services rendered within New York State that are directly connected with the sale of steam, water, or refrigeration for ultimate consumption or use within New York State. Receipts include but are not limited to:

- Receipts from installation charges.
- Receipts from service charges (other than installation) that are performed in the conduct of the utility's principal business.
- Receipts from "rentals" within New York State that in fact constitute service charges (for example, receipts received from equipment necessary to enable the customer to use the commodity). See *Special rules for landlords* above.

Line 28 — Enter receipts (without any deduction) from sales of merchandise (conditional or otherwise) within New York State that are directly connected with the sale of steam, water, or refrigeration, for ultimate consumption or use within New York State. *Sales of merchandise* includes materials and supplies that constitute stock in trade of the utility and are included in merchandise inventory. Receipts include but are not limited to:

- Receipts from the sale of merchandise to the utility's customers.
- Receipts from the sale of merchandise to other utilities.
- Receipts from the sale of merchandise to employees (except work supplies such as clothing, shoes, and helmets).

Do not include receipts from the sale of merchandise when the merchandise does not constitute stock in trade and is not included in merchandise inventory (that is, items of fixed assets such as fixtures, furniture, or machines).

Line 29 — Enter any other receipts (without any deduction) from steam, water, or refrigeration sales made or services rendered within New York State that are derived from the conduct of the utility's principal business. Receipts include but are not limited to receipts from the sale of residuals and by-products that are consumed or used in New York State.

Part III — Receipts from interest and dividends allocated to New York State

Line 31 — Enter receipts from interest and dividends from sources within New York State, without any deduction for any expense incurred in connection with the receipt. Do not include interest and dividends received from any of the following:

- A corporation, the majority of whose voting stock is owned by the taxpaying utility.
- Obligations of the United States; any state, territory, or possession of the United States; or the District of Columbia.
- Obligations of a foreign country.
- Any obligation from any political subdivision or governmental instrumentality of any of the above.

Compute receipts from interest and dividends from sources within New York State that are received from corporate and noncorporate entities. Enter in column A the name of the entity that paid the interest or dividend. Enter in column B the type of security (that is, stock, bond, or interest-bearing cash account). Enter in column C the amount of interest or dividends received. Enter in column D the issuer's allocation percentage of the corporation that issued the security (always enter the issuer's allocation percentage from the year immediately preceding the current tax year). Use the issuer's allocation percentage to compute the amount of interest and dividends allocated to New York State in column E.

In the event the entity that issued the security was not a corporate entity, the amount of interest or dividends allocated to New York State is determined by the percentage of capital employed in New York State by the payer of the stock, bond, interest-bearing cash account, or other security, for the year immediately preceding the current tax year. Attach a statement showing the computation of the payer's capital employed in New York State, as compared to total capital employed everywhere.

Issuer's allocation percentages for corporate entities can be obtained from tax services publications, from the Tax Department Web site (www.tax.state.ny.us), or by written request to: NYS Tax Department, Taxpayer Assistance Bureau, W A Harriman Campus, Albany NY 12227.

Up to three issuer's allocation percentages may be obtained by calling toll free 1 800 972-1233. From areas outside the U.S. and outside Canada, call (518) 465-6800.

Line 32 — Enter receipts from royalties from sources within New York State without any deductions incurred in connection with the receipt. Royalties include all amounts received by the utility for the use of patents or copyrights, whether or not such patents or copyrights were issued to or are owned by the utility. A patent or copyright is used in New York State to the extent that the activities under the patent or copyright are carried on in New York State.

Part IV — Computation of profits

Line 34 — Enter profits (that is, the gross selling price minus the basis without any further deductions) from the sale of securities that are held, managed, or controlled within New York State.

Securities includes shares of stock in any corporation; certificates of stock or interest in any corporation; securities issued by governmental bodies; and securities issued by corporations of a like nature as stock and bonds that are sold in the open market or on a recognized exchange, designed as a means of investment, and issued for the purpose of financing corporate enterprises and providing a distribution of rights in, or obligations of, such enterprises.

Include profits from the sale of any tax exempt securities such as those of:

- The United States, any state, territory, or possession of the United States.
- The District of Columbia.
- Any foreign country.
- Any political subdivision or instrumentality of any of the above.

Include profits from the sale of securities of an affiliated company and profits from the sale of reacquired stock (treasury stock).

Except for a block transaction, losses from sales of securities may **not** be applied against profits from the sale of securities. A block transaction is a single sale where sales of the same security are made in several lots (for example, a utility carries a block of 10,000 shares of the same securities of a corporation in its portfolio and orders its broker to sell the entire block; the fact that the broker executes the order by disposing of the block in several lots does not change the essential nature of the transaction and make it more than one sale).

Line 35 — Enter profits (that is, the gross selling price minus the basis without any further deductions) from the sale of real property within New York State in which the utility owns or has an ownership interest.

Line 36 — Enter profits (that is, the gross selling price minus the basis without any further deductions) from the sale of personal property within New York State that does not constitute stock in trade of the utility and is not included in merchandise inventory. Profits include but are not limited to profits from the sale of fixed assets such as fixtures, furniture, machinery, and equipment.

Do not include profits from the sale of merchandise (that is, materials and supplies) that constitute stock in trade of the utility and are included in merchandise inventory.

Line 37 — Enter profits (that is, the gross selling price minus the basis without any further deductions, or, in the case of the sale of a service, the gross selling price of the service minus the cost of the service provided) from any transactions within New York State that are not performed in the conduct of the utility's principal business. Do not include profits from sales for resale or profits from rentals. Profits include but are not limited to:

- Profits from the sale of merchandise (that is, materials and supplies) that do not constitute stock in trade of the utility and are not included in merchandise inventory.
- Profits from labor not performed in the conduct of the utility's principal business.
- Profits from transportation or transmission agreements where the utility uses its mains, pipes, or wires within New York State to transport or transmit a commodity owned by another utility.

Line 39 — Deductions allowed from profits on lines 34 through 37 are:

- Brokerage fees, legal fees, advertising fees, and other selling expenses incurred due to the sale of securities, real property, and personal property.
- Cash discounts taken by the customer.
- Uncollectible accounts.
- Taxes imposed by New York State or its municipalities or the federal government where the taxpayer is merely a collecting agency for the taxing authority (for example, state and local sales taxes and federal excise taxes).

Enter all deductions listed above that are included as receipts on lines 34 through 37. Attach a statement listing all deductions.

Part IV — Computation of tax on gross income

Line 41 — The tax rates on gross income for line 41 are:

Tax year	Rate
January 1, 2000, through December 31, 2000	2.5% (.025)
January 1, 2001, through December 31, 2001	2.45% (.0245)
January 1, 2002, through December 31, 2002	2.4% (.024)
January 1, 2003, through December 31, 2003	2.25% (.0225)
January 1, 2004, through December 31, 2004	2.125% (.02125)
January 1, 2005, and thereafter	2.0% (.02)

Line 42 — The tax rates on gross income for line 42 are:

Tax year	Rate
January 1, 2000, through December 31, 2000	2.1% (.021)
January 1, 2001, through December 31, 2001	2.0% (.02)
January 1, 2002, through December 31, 2002	1.9% (.019)
January 1, 2003, through December 31, 2003	.85% (.0085)
January 1, 2004, through December 31, 2004	.4% (.004)
January 1, 2005, and thereafter	0%

Line 43 — If the receipts on lines 20, 23, 30, 33, and 40 are less than \$500, you are exempt from the payment of tax under section 186-a. However, you are required to complete and file Form CT-186-P. Enter "0" on lines 1, 41, 42, and 43.

Privacy notification

The right of the Commissioner of Taxation and Finance and the Department of Taxation and Finance to collect and maintain personal information, including mandatory disclosure of social security numbers in the manner required by tax regulations, instructions, and forms, is found in Articles 8, 9, 9-A, 13, 19, 27, 32, 33, and 33-A of the Tax Law; and 42 USC 405(c)(2)(C)(i).

The Tax Department uses this information primarily to determine and administer corporate tax liabilities under the Tax Law, for certain tax refund offsets, and for any other purpose authorized by law.

Failure to provide the required information may subject you to civil or criminal penalties, or both, under the Tax Law.

This information is maintained by the Director of the Registration and Data Services Bureau, NYS Tax Department, Building 8 Room 338, W A Harriman Campus, Albany NY 12227; telephone 1 800 225-5829. From areas outside the U.S. and outside Canada, call (518) 485-6800.

Need help?

Telephone assistance is available from 8:30 a.m. to 4:25 p.m. (eastern time), Monday through Friday.
