Farm Workforce Retention Credit and Attachment

General information

For tax years beginning on or after January 1, 2017, the farm workforce retention credit is available to taxpayers who meet the eligibility requirements.

Eligibility

To be eligible for this credit, you must meet **all** of the following requirements:

- you are subject to tax under Tax Law Article 9-A or 22,
- you are a farm employer or an owner of a farm employer, **and**
- you employ eligible farm employees.

Definitions

You are *engaged in the business of farming* if you cultivate, operate, or manage a farm for gain or profit, even though the operation may not produce a profit every year.

You are also engaged in the business of farming if you rent your farm property to another person who uses the property in agricultural production and the rental arrangement meets one of the following conditions:

- A. The amount of the rental is a crop share (shared rental agreement). That is, the amount of rent is based upon the actual production of the land, whether paid to you in cash or in kind; **or**
- B. You have an arrangement with your tenant for your participation in the farm business and you meet **one** of the following four tests:
 - 1 You do **any** three of the following: (1) pay or stand good for at least half of the direct costs of producing the crop; (2) furnish at least half of the tools, equipment, and livestock used in producing the crop; (3) consult with your tenant; **and** (4) inspect the production activities periodically.
 - 2 You regularly and frequently make, or take an important part in making, management decisions substantially contributing to or affecting the success of the enterprise.
 - 3 Your employees work 100 hours or more, spread over a period of 5 weeks or more, in activities connected with crop production.
 - 4 You do things that, considered in their total effect, show that you are materially and significantly involved in the production of farm commodities.

Farming includes the operation or management of livestock, dairy, poultry, fish, fruit, fur-bearing animal, and vegetable (commonly referred to as truck) farms. *Farming* also includes the operation or management of plantations, ranches, ranges, and orchards.

For example, *farming* includes, but is not limited to, the raising or production of the following commodities:

- field crops, including corn, wheat, oats, rye, barley, hay, potatoes, and dry beans;
- fruits, including apples, peaches, grapes, cherries, and berries;
- vegetables, whether raised conventionally or hydroponically, including tomatoes, snap beans, cabbage, carrots, beets, and onions;

- horticultural specialties, including nursery stock, ornamental shrubs and ornamental trees, and flowers;
- livestock and livestock products, including cattle, sheep, hogs, goats, horses, poultry, farmed deer, farmed buffalo, ostrich, emus, fur-bearing animals, milk, and eggs;
- aquaculture products, including fish, fish products, water plants, and shellfish (provided the aquaculture products are grown and raised, not merely being harvested or caught);
- honey and beeswax produced from the farmer's own bees; **and**
- maple syrup or cider.

Farming also includes:

- the sale of wine from a licensed farm winery, as provided in Alcoholic Beverage Control Law Article 6;
- the commercial boarding of horses as defined in Agriculture and Markets Law § 301(13);
- a managed Christmas tree operation whether dug for transplanting or cut from the stump; **and**
- the sale of cider from a licensed farm cidery, as provided in Alcoholic Beverage Control Law § 58-c.

You are **not** engaged in the business of farming if your principal source of income is from providing agricultural services, such as soil preparation, veterinary services, or farm labor. You are not engaged in the business of farming if you manage or operate a farm for a fee. Furthermore, if you are cultivating or operating a farm for recreation or leisure (such as a hobby farm), you are not engaged in the business of farming. Also forestry and logging are not farming unless the products are used in the operation of a farm or are connected with an otherwise qualifying farm operation as described above.

A *farm employer* is a taxpayer subject to tax under Article 9-A or 22 that:

- is a corporation (including a New York S corporation), a sole proprietorship, a limited liability company (LLC), or a partnership, **and**
- is also an *eligible farmer*.

An *eligible farmer* is a taxpayer whose federal gross income from farming for the tax year is at least two-thirds of excess federal gross income.

Excess federal gross income is the amount of federal gross income from all sources for the tax year in excess of \$30,000.

An *eligible farm employee* is an individual who is employed for 500 hours or more per tax year by a farm employer in New York State, but excluding general executive officers of the farm employer. Workers who are part of the H-2A Temporary Agricultural Worker Program that meet the definition of an eligible farm employee may be included in the computation of this credit.

If an individual employed by a farm employer in New York State becomes unable to work due to a documented illness or disability, the farmer may combine the hours this individual was employed during the tax year with the hours of another individual hired to replace the ill or disabled individual in the same tax year when determining the 500-hour-per-tax-year threshold for an eligible farm employee. The ill or disabled worker and the worker

hired to replace the ill or disabled worker are considered one eligible farm employee for purposes of computing the credit.

The farm employer must obtain proof of illness or disability for the ill or disabled worker in the form of a written statement from a physician or other health care provider who is licensed, certified, or otherwise permitted by law to diagnose or treat the physical or mental condition that led to the claimed illness or disability. The statement must include:

- the name and a description of the farm employee's illness or disability;
- the physician's or health care provider's medical opinion that the illness or disability prevented the individual from working;
- to the best of the physician's or health care provider's knowledge, the specific time period during which the individual is or was unable to work due to illness or disability; **and**
- the following certification signed by the physician or health care provider: *"I hereby certify that, to the best of my knowledge and belief, the above representations are true, correct, and complete."*

Note: A farm employer must retain documentation of the hours worked (and proof of illness or disability, if applicable) for all eligible farm employees and make it available to the Tax Department upon request.

Qualified agricultural property means land located in this state which is used in agricultural production, and land improvements, structures and buildings (excluding buildings used for the taxpayer's residential purpose) located on such land which are used or occupied to carry out such production. Qualified agricultural property also includes land set aside or retired under a federal supply management or soil conservation program or land that at the time it becomes subject to a conservation easement, as defined under New York State Tax Law § 606(kk), met the requirements under this paragraph.

Credit information

The credit is equal to a fixed dollar amount per eligible farm employee. The credit amounts per eligible farm employee by tax year are shown in the table below:

Tax years beginning on or after	Credit amount per eligible farm employee
January 1, 2017, and before January 1, 2018	\$250
January 1, 2018, and before January 1, 2019	\$300
January 1, 2019, and before January 1, 2020	\$500
January 1, 2020, and before January 1, 2021	\$400
January 1, 2021, and before January 1, 2022	\$600
January 1, 2022, and before January 1, 2026	\$1,200

A farm employer may not use any farm employees used in the computation of the farm workforce retention credit to claim any other tax credit.

A shareholder, partner, LLC member, or beneficiary of an estate or trust that is taxable under Article 9-A or 22 is allowed to claim a pro rata share of the credit passed through from a New York S corporation, partnership, LLC, estate, or trust that is a farm employer eligible for the credit. The credit amount is determined at the entity level.

The credit cannot reduce the tax due to less than the fixed dollar minimum tax. Any unused amount of credit for the current tax year will be treated as a refund or an overpayment of tax to be credited to next year's tax. Interest will not be paid on the refund or overpayment.

The credit is not allowed against the metropolitan transportation business tax (MTA surcharge) under Article 9-A.

New York S corporations: New York S corporations will calculate the credit, however the S corporation may not use the credit against its own tax liability. Instead, the credit is passed through to the shareholders to use against their personal income tax liabilities on their New York State tax returns. Complete only lines A, B, C, D, and E, and Schedules A and D.

Combined filers: A taxpayer filing as a member of a combined group is allowed to claim the credit, which is computed on a separate basis but applied against the combined tax.
