New York State pari-mutuel tax (include this amount in the total on Form AU-212, line 2)

New York State share of breakage (include this amount in the total on Form AU-212, line 3)

Instructions

General information

This schedule is used by a simulcast receiver to determine the amount of New York State pari-mutuel tax and share of breakage due for the type of simulcast received (*Track-to-track*, *Teletheater*, or *Other*) for the reporting period indicated. The total amounts due must be reported on Form AU-212, *New York State Pari-Mutuel Betting Tax Return*.

New York State pari-mutuel tax – The amount shown as total pari-mutuel tax must be included in the total amount entered on Form AU-212, line 2.

New York State share of breakage – The amount shown as total breakage must be included in the total amount entered on Form AU-212, line 3.

Line instructions

Name – Enter the simulcast sending track.

Handle and breakage – Enter the handle and breakage for each type of bet. Multiply each amount by the appropriate tax rate to determine the amount due. Transfer the total amounts due to the *Total* column. Add the totals and enter the result on *Total amount due* line. These amounts are the pari-mutuel tax and state share of the breakage due.
