Overview

This publication contains a series of statistical tabulations detailing taxes administered by the New York State Department of Taxation and Finance. The information presented includes revenues and selected tax structure and consumption information for the State's major taxes. It also presents data for some locally imposed taxes. This edition presents information for New York State Fiscal Year 1997-98 (SFY 97-98) and some historical statistics. SFY 97-98 began April 1, 1997 and ended March 31, 1998.

During SFY 97-98, the Department collected over \$33.9 billion from State-imposed taxes. The State personal income tax accounted for the largest share, nearly \$17.8 billion. The State sales tax (\$7.3 billion), business taxes (over \$5.9 billion), excise and user taxes (\$1.6 billion) and property transfer taxes (\$1.3 billion) contributed toward that total. The following chart depicts the share of total taxes from these major sources.

**New York State Tax
Collections: Fiscal Year 1997-
1998**

This publication is divided into seven sections containing 29 statistical tables. Section I presents State taxes and fees by major tax group. Sections II through VI contain detailed historical revenue information for the major categories presented in Section I. Where available, additional tax base information is presented. For example, Table 9 in Section III displays the amount of taxable gallons by product type for SFY 97-98 on which the petroleum business tax was imposed. Section VII shows selected information on local sales tax receipts, the City of New York and City of Yonkers personal income taxes and the regional Metropolitan Transportation Tax Surcharge.

The Appendix summarizes the effective dates for New York's major taxes. Finally, the Glossary provides an explanation for some of the technical terms presented in the statistical tables.

Data users should consult the Governor's *Executive Budget*, prepared by the Division of the Budget, and the Office of Tax Policy Analysis' annual *New York State Tax Sourcebook* for descriptive summaries of the taxes, and the *Summary of 1998-99 Tax Provisions* for a discussion of recent tax legislation. This knowledge is important for understanding and properly interpreting the data presented in this report.

Tabular data presented in the publication may be obtained from the Department's World Wide Web site at www.tax.state.ny.us. Questions, other inquiries and individual data table requests may be directed by electronic mail to: Otpa_-_Tax_Data@tax.state.ny.us.

1/ Taxable gallons are derived from monthly tax liability as reported by distributors on timely-filed tax returns, related to collection period. Collections include current liability plus assessments and delinquencies, less credits and refunds.

a/ Total collections include a one-time spin-up of prepayments received through the Electronic Funds Transfer (EFT) procedure, first effective December 1, 1992.

* Gallonage data revised.

1/ Metric volumes of liquor have been converted to U.S. gallons. Taxable gallons may include assessments not yet collected.

2/ Tax collections may be affected by assessments, delinquencies, prepayments and refunds and do not necessarily agree with gallonage data. Differing tax rates during fiscal years 1990 and 1991 tend to distort volume-to-tax comparisons with other periods.

3/ Floor taxes reflect the application of the new tax rate to inventories on the day of the rate change.

Glossary

This section explains some of the technical terms used in this report's statistical tables.

Boxing and Wrestling Exhibitions Tax	A 5.5 percent tax is imposed on the gross receipts of boxing and wrestling exhibitions. Receipts from broadcast and motion picture rights are also subject to the tax. Since single events of high spectator interest strongly influence the size of the tax base, the yield of the tax varies considerably from year to year.
Cigarette Tax Commissions	Discounts provided to cigarette agents and dealers for affixing the State's stamp or meter impression on a package of cigarettes.
Compensating Use Tax	The tax imposed on tangible personal property and services used within the State on which a sales tax would have been due but was not paid.
Delinquencies	Collections on tax assessments issued for prior tax liability periods, plus remittances with returns filed for prior tax liability periods.
Electronic Fund Transfer Payment	Taxpayers liable for more than \$1 million in State and local sales and use taxes or \$5 million in prepaid sales and use taxes on motor fuel and diesel motor fuel, petroleum business taxes, or motor fuel taxes, are required to make payment of tax by electronic fund transfer or certified check. Taxpayers must pay 3/4 of the total liability for the comparable liability period of the preceding year, or the total liability for such taxes during the current period ending on the 22nd day of each month.
Final Payments	Taxpayer remittances with final returns to satisfy tax liabilities not met by pre-payments in the form of withholding tax or estimated tax for the current tax liability period.
Fiscal Year	State and local government financial accounting periods. The State's fiscal year extends from April 1 through March 31. New York City and

Yonkers have fiscal years of July 1 through June 30. Most other cities and school districts have fiscal years extending from July 1 through June 30 or use the calendar year as their fiscal year.

Minor Offsets	Reductions made to individual income tax overpayments for taxpayers that have incurred liabilities and arrearages enforceable by other federal and State agencies. These include the Department of Family and Children's Services (past-due support payments), Higher Education Services Corporation (defaults on guaranteed student loans), State University of New York and City University of New York (defaults on national defense, national direct, health professions or nursing student loans), the Department of Taxation and Finance (outstanding liabilities for other taxes), and the Internal Revenue Service (outstanding federal liabilities).
Municipal Assistance Corporation for the City of New York (MAC)	A public entity created in 1975 to help New York City meet its fiscal obligations. MAC is authorized to impose a general sales and compensating use tax in lieu of a New York City sales tax.
Negotiated Settlements	Collections on settlements, litigation, administrative proceedings and related disputes between New York and the oil industry concerning corporate taxation of the industry prior to the adoption of Article 13-A (a gross receipts tax from July 1, 1983 through August 31, 1990). This legislation consolidated petroleum gross receipts taxes imposed by Article 9, Sections 182-A and 182-B of the Tax Law into a single tax. The new law also repealed the disputed unitary reporting requirements for oil companies.
New York City Alcoholic Beverage Taxes	The City imposes excise taxes of 12 cents per gallon on beer and 26.4 cents per liter on liquors over 24 percent alcohol. The tax is administered by the State Department of Taxation and Finance.
New York City Personal Income Tax	The City imposes a personal income tax on residents and an earnings tax on nonresidents earning wages or self-employment income in New York City. The residential income tax conforms to the State's definition of taxable income and has tax rates in tax year 1997 ranging from 2.25 percent to 3.4 percent. Two surcharges also apply. The first

imposes an additional top tax rate of 0.51 percent. The second surcharge is an additional tax equal to 14 percent of base tax plus surcharge. The combined effect is a maximum top tax rate of 4.46 percent in 1997. The nonresident earnings tax base is computed on gross taxable wages plus net earnings from self-employment, minus a \$3,000 exclusion which vanishes to zero. The tax rate applied to wages is 0.45 percent while the tax rate applied to net earnings from self-employment is 0.65 percent.

New York Racing Association (NYRA)

A privately-owned, non-profit corporation chartered by the State to conduct thoroughbred racing at Aqueduct, Belmont and Saratoga racetracks. NYRA is operated by professional management under the direction of a Board of Trustees which serves without compensation. NYRA pays the State a franchise fee for the right to conduct races and pari-mutuel wagering.

Off-Track Betting (OTB)

1970 legislation authorized New York City and other municipalities in the State to operate off-track betting systems to provide local government revenues and combat illegal bookmaking. Subsequent legislation created the State Racing and Wagering Board to regulate the seven geographic OTB regions encompassing all of New York State. Portions of the retained commissions on all wagers are distributed to racetracks, breeders funds and the State as prescribed by law. After deducting self-supporting operating expenses, OTB corporations remit the balance of these commissions and a surcharge to participating local governments.

Pari-Mutuel Taxes

A tax imposed on horse racetracks and OTB operators based on commissions and breakages. Also called the State's "take" or "take out," it is the State Racing and Wagering Board determined percentage of the total wagering pool. "Breakage" is the odd cents over any multiple of 10 cents not returned to the winning bettors calculated on the basis of a \$1.00 bet.

Preemption	A term used to describe rights to sales and compensating use tax revenues in overlapping taxing jurisdictions. Some municipalities within a county as well as the county may impose a local sales tax. The city and the county reach an agreement on dividing the local tax rate and revenues. For example, if County X imposes a countywide 3 percent sales and use tax, and City X also imposes a citywide 3 percent sales and use tax, and State law limits the total local sales tax rate to be 3 percent, County X will allow City X to acquire part or all of County X's sales tax rate within City X.
Racing Admissions Taxes	A 4 percent tax on racetracks and simulcast theater admissions.
Racing Season	Unless stated otherwise, a racing season is a calendar year.
Refund Reserve	A special account containing income tax revenues earmarked for paying income tax refunds. Amounts in the tables reflect the net change in the account balance between the opening balance (amounts carried in from a prior fiscal year) and the closing balance (amount carried over to the subsequent fiscal year).
State to City Offsets	Reconciliation of actual income tax liability with the estimated prior cash receipts distribution. Transfers are made between the State, New York City and Yonkers.
Stock Transfer Tax	A tax imposed on the sale or transfer of stock, agreements or memoranda of sales, certificates of interest in property or accumulations and certificates of interest in business conducted by trustees, within New York. A rebate program was enacted in October of 1979 and phased in over succeeding years so that the entire tax is now rebated.
Uncashed Tickets	Not all winning mutuel tickets are cashed by ticket holders. The State is allowed to retain the value of winning tickets not turned in within a specified time.

**Wildlife and Other
Gifts and
Contributions**

Voluntary taxpayer contributions to the State Department of Environmental Conservation's "Return a Gift to Wildlife" program, the Breast Cancer Research and Education program, the Missing and Exploited Children Clearinghouse Fund, and the Lake Placid Olympic Training Facilities program. Personal income taxpayers may increase their final remittances or reduce their overpayments by the amount of their contribution.

**Yonkers Personal
Income Taxes**

A personal income tax surcharge on Yonkers residents, plus an earnings tax on nonresidents earning wages or self-employment income in the City of Yonkers, apply. For 1997, the resident surcharge is 15 percent of the resident's net State income tax. The nonresident earnings tax rate is 0.5 percent of net earnings or self-employment income after deductions.
